

Exemption – Agricultural Activities

8420.0420. Subp. 2

- C. impacts resulting from soil and water conservation projects that are certified by soil and water conservation district technical staff after review by the technical evaluation panel, if the project minimizes adverse effects on the hydrologic and biologic characteristics of the wetland.

Exemption – Agricultural Activities

8420.0420. Subp. 2

- C. impacts resulting from soil and water conservation projects that are **certified by soil and water conservation district technical staff** after **review by the technical evaluation panel**, if the **project minimizes adverse effects** on the hydrologic and biologic characteristics of the wetland.

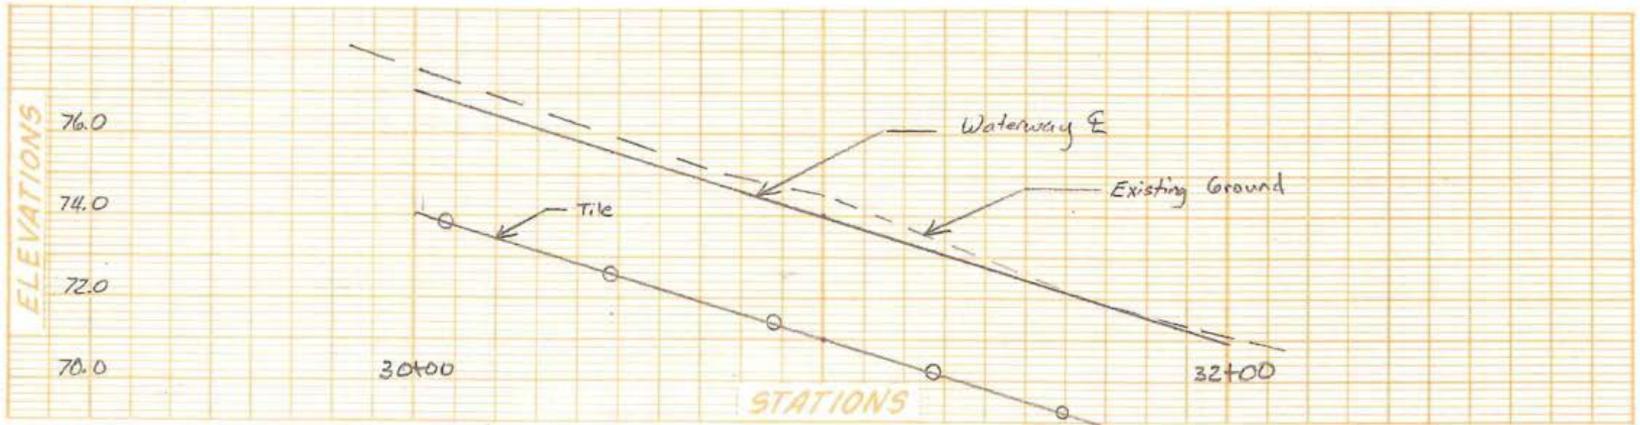

Type 2 Sedge Meadow

Type 2/6 Wet Meadow

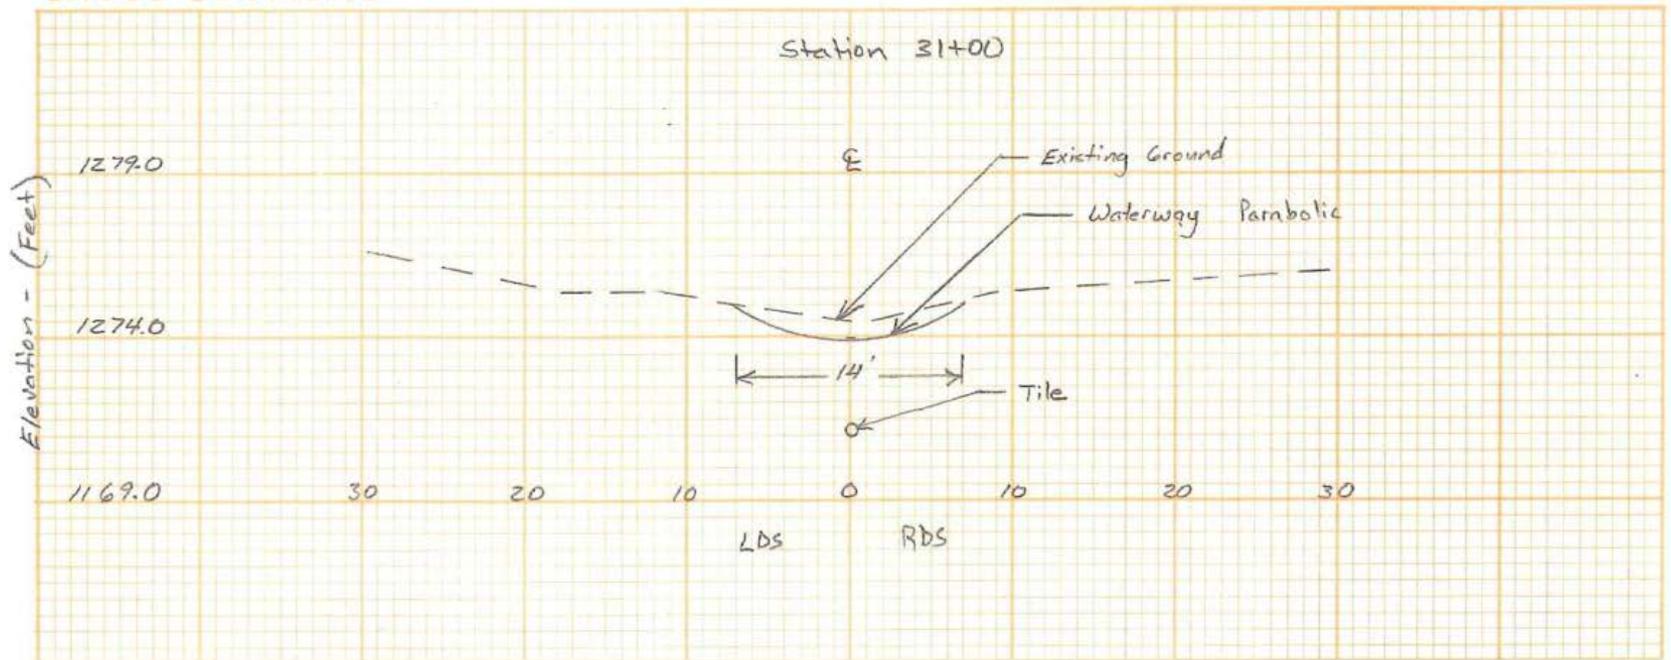

Type 2 Wet Meadow

PROFILE

CROSS SECTIONS

What to consider...

1. Review by TEP

- Assessment of wetland resources – quantity and quality
- Assessment of conservation needs
- Assessment of appropriate BMP

2. Practice must be certified by SWCD technical staff (technical approval authority)

- NRCS technical standards

3. Practice must minimize impacts to wetlands
