## Project Narrative

Lake Miliona is considered one of the finest lakes in Central Minnesota and its 15 miles of lake shore make it the largest lake in Douglas County. Smokey Timbers Youth Camp, owned by the Smokey Timbers Foundation, is located on the north side of Lake Miliona. There is currently an erosion problem at the camp where a large gully has developed that drains into the lake.

The Smokey Timbers Foundation and Miliona Township are partnering on this project to solve this erosion problem. The proposed solution for the problem is to construct a diversion to direct some of the runoff into existing woodlands to treat the runoff. The existing gully will be reshaped as a waterway and will outlet into a grass buffer area before entering Lake Miliona.

## Proposed Outcomes:

Project Outputs:  
 Smokey Timbers Camp Erosion Control Project.

## Actual Outcomes:

Project in Progress
