

# Cedar Lake Shoreline Improvements

## Clean Water Funds: 2011

Clean Water Grant	\$15,000
Leveraged Funds*	\$5,000
Total Project Budget	\$20,000

\* Leveraged Funds include required 25% local match

### Targeted Water:

Cedar Lake, Scott County

### Project Sponsor:

Scott Watershed Management Organization

### Partners:

Scott Watershed Management Organization, Scott County Parks, Scott SWCD

### Grant Period:

January 2011 - December 2012

### Project Contact:

Melissa Bokman  
952-496-8887 0  
mbokman@co.scott.mn.us

## Project Narrative

This project targets stabilizing 900+ feet of eroding shoreline in the Cedar Lake Farms Regional Park converting it into a healthy native buffer on Cedar Lake. The project addresses phosphorus loading by reducing erosion from unstable shoreline banks adjacent to Cedar Lake. This will increase infiltration, intercept upland runoff, and stabilize the soil at the water's edge to decrease erosion and the addition of phosphorus into the lake.

It is estimated that a shoreline stabilization at Cedar Lake will reduce 12-25 lbs/year phosphorus depending on the regression rate.

## Cedar Lake Shoreline Improvements

Failing streambank
