

Feedlot (NRBG)

BWSR Grant Profile

February 4, 2016

Grant Description

The Natural Resources Block Grant (NRBG) is a composite of base grants available to local government units that help them implement programs designed to protect and improve water resources. The MPCA County Feedlot Program grant is used for county administration of the MPCA County Feedlot program. All counties that have received delegation from MPCA to administer this program are eligible to receive this grant. A local .7:1 match is required.

Feedlot grant funds were dispursed annually to counties as part of the executed NRBG grant agreement or addendum through fiscal year 2015. Beginning in fiscal year 2016, new Feedlot grants will be administered directly through MPCA, and new grants will not be managed in eLINK. Grantees should continue to report on any open Feedlot grants in eLINK from fiscal year 2015 and prior through grant closeout.

Reporting Overview

The NRBG Feedlot grant does not require a workplan. Expenses should be reported in eLINK, and a description of how the funds were used should be entered in the Actual Results field. The full amount of this grant is paid to the grantee upon execution of the NRBG grant agreement or, in the case of the second year of a biennial grant agreement, receipt of the Notice of Payment addendum.

eLINK Reporting Requirements

Type: NRBG
Administered by: MPCA
Application completed in eLINK? No
Proposed Indicators in Application: No
Grant Agreement distributed through eLINK*: Yes
