

What's Working:

Conservation Project Planning & Promotion

February 2016

Plan Development

2016 Information:

- The development of detailed plans has been identified as one of the keys to successful restoration projects. A [sample plan](#) for wetland mitigation projects can be found in an appendix of the recently completed [Minnesota Wetland Restoration Guide](#) that has an overall focus on effective planning and selection of practices that will lead to successful projects.
- Performance standards are typically required as part of wetland mitigation plans to define the expected outcome for a projects. A [performance standard template](#) has been developed between state and federal agencies to help guide planning for mitigation projects.
